BRAND IDENTITY SYSTEM

Brand Guidelines

The definitive reference for how United Field Services presents itself across every channel, surface, and touchpoint.

Version 1.0 — March 2026

Confidential — Internal Use Only

01 — BRAND FOUNDATION

Who We Are

United Field Services is a trusted, experienced provider of residential real estate maintenance and vacant property management — a reliable partner across the entire property lifecycle.

✦ MISSION

To be the most reliable, efficient field services partner for REO agents, banks, and asset managers — handling the hard work so they can focus on their portfolio.

✦ VISION

The go-to national field services platform — where every order is tracked, every property is protected, and every client trusts the outcome.

✦ PROMISE

Professional. Reliable. Accountable. Every field service delivered on time, on spec, and fully documented.

BRAND PERSONALITY

Dependable Operator

We don't over-promise. We deliver. Our tone is direct, confident, and grounded — like a 15-year veteran who's seen everything and has a system for all of it.

BRAND VALUES

→ Reliability over speed

→ Transparency in process

→ Professionalism in every interaction

→ Industry expertise, not just service

POSITIONING

For REO professionals who need a field services partner they can trust at scale — UFS is the one call that handles everything.

02 — LOGO SYSTEM

Logo & Mark

The UFS identity is built on a hexagonal mark — a symbol of structure, reliability, and precision — paired with our wordmark in Playfair Display.

ON BLACK — PRIMARY

ON WHITE — SECONDARY

ON RED — SPECIAL USE

ON GRAY — ALTERNATE

✓ DO

Use only approved color combinations. Maintain clear space equal to the height of the "U" around all edges. Scale proportionally only. Use vector files for all print.

✗ DON'T

Don't stretch, skew, or rotate the logo. Don't add drop shadows or effects. Don't use on complex photo backgrounds without a clear protective field. Don't recreate the logo in other typefaces.

MINIMUM SIZE

Digital: 120px wide minimum
Print: 30mm wide minimum

Below these sizes, use the standalone hex mark only.

CLEAR SPACE

The minimum clear space around the logo equals the height of the letter "U" in the wordmark. No other elements may enter this zone — text, imagery, or other logos.

Color Palette

The UFS palette is built on authority and precision. Charcoal black grounds all communications; UFS Red drives urgency and action; warm neutrals provide breathing room.

COLOR	PRIMARY USE	SECONDARY USE	NEVER USE FOR
UFS Charcoal	Hero backgrounds, headers, nav bars, wordmark	Text on light backgrounds, footer	Body copy on dark surfaces
UFS Burgundy	Primary CTAs, buttons, links, key accents	Section dividers, building mark (left columns)	Large background areas, body text
UFS Gold	Logo mark accent (right building columns)	Warm decorative accents on dark backgrounds	Body text, UI backgrounds, buttons
White	Content areas, card surfaces	Text on dark/red backgrounds	Never as a standalone design element

COLOR	PRIMARY USE	SECONDARY USE	NEVER USE FOR
Off White	Page background, email background	Secondary sections, alternating rows	Do not use for text
Mid Gray	Supporting text, metadata, captions	Disabled states, borders	Headlines or primary UI text

04 — TYPOGRAPHY

Type System

Two typefaces. One serif for authority and presence. One sans for clarity and function. The pairing creates trust — editorial confidence backed by operational precision.

Playfair Display

Display / Headlines

Weights: 700, 900

Usage: H1, H2, pull quotes, hero text

PRIMARY DISPLAY

Protecting Every Property.

Reliable Field Services for REO Professionals

DM Sans

Body / Interface

Weights: 300, 400, 500, 600

Usage: Body, UI, labels, nav, captions

BODY / UI

We work with REO agents, banks, and asset managers — handling property inspections, occupancy checks, maintenance, and preservation orders so you can focus on your portfolio.

SUBMIT ORDER → TRACK IN REAL TIME → DOCUMENTATION READY

TYPE SCALE

Display · 72px	**United**
H1 · 48px	**Field Services Partner**
H2 · 32px	**Our Services**
H3 · 22px	**Property Preservation**
Body · 16px	We provide full REO field services to make sure properties are secure, well-maintained, and in compliance with all applicable laws.
Small · 13px	Order #123456 · Submitted March 31, 2026 · Status: In Progress
Label · 11px	CLIENT PORTAL · REO FIELD SERVICES · BECOME A CLIENT

Fallback stack: If Google Fonts are unavailable, use `Georgia, 'Times New Roman', serif` for display and `-apple-system, BlinkMacSystemFont, 'Segoe UI', sans-serif` for body.

05 — VOICE & TONE

How We Speak

UFS speaks like a trusted industry veteran — confident, direct, never salesy.
We lead with competence, not hype.

Direct

We say what we mean without filler. No buzzwords, no fluff. Every sentence earns its place.

> *"Submit your order. We handle the rest."*

Expert

We speak the language of REO. We understand the workflow. We reference real job types, real platforms, real expectations.

> *"Occupancy checks, preservation orders, lock changes — all tracked in one place."*

Warm

Professional doesn't mean cold. We're human. We build relationships. We follow up.

> *"Really enjoyed connecting with you today."*

✓ WRITE THIS

Submit your first order in 60 seconds.

We handle inspections, occupancy checks, and preservation.

Your documentation is ready when your asset manager asks for it.

Track every order in real time from your portal.

No forms to fill out — I can set your account up right now.

✗ NOT THIS

Leverage our best-in-class synergistic solutions.

We are a full-service provider of comprehensive residential real estate maintenance.

Please do not hesitate to reach out at your earliest convenience.

Revolutionize your real estate business with our streamlined platform!

We are thrilled to announce our exciting new partnership.

EMAIL TONE

Conversational and action-oriented. Short paragraphs. One clear CTA per email. Never more than 3 paragraphs before the ask.

WEBSITE TONE

Confident and benefit-led. Lead with what the client gets. Use active voice. Sub-headlines that answer "why should I care?"

NEWSLETTER TONE

Industry-expert voice. Data-first. Insightful, not promotional. The Disposition Desk informs — it doesn't sell. One soft CTA per issue, at the end.

06 — ICONOGRAPHY

Icons & Symbols

Icons reinforce service categories. Use outline-style, 2px stroke weight. Never use filled icons in primary UI — reserve fills for status indicators only.

Property Inspection	Secure / Lock Change	Occupancy Check
Maintenance	Work Order	Portal Search

✓ ICON USAGE RULES

Use 24×24px grid. 1.5px stroke weight. Rounded line-caps. Always use the same icon style library throughout a single document or template (Lucide preferred).

✗ ICON MISUSE

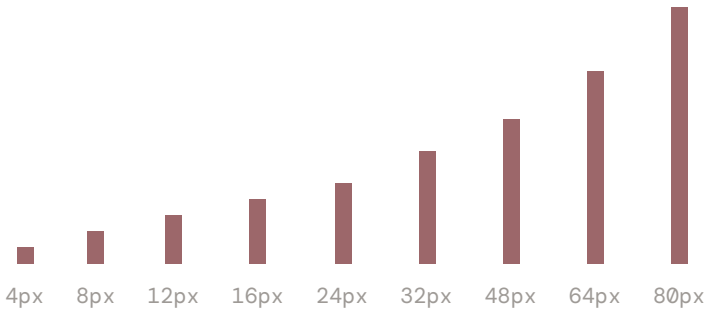
Don't mix filled and outline icon styles. Don't resize icons non-uniformly. Don't use icons smaller than 16px in UI. Don't use stock emoji as substitute icons in professional materials.

07 — SPACING & LAYOUT

Grid & Spacing

A consistent 8px base unit governs all spacing. Layouts breathe — generous white space communicates professionalism and trust.

SPACING SCALE (8PX BASE)



WEB GRID

12-column grid. Max content width: 1160px. Gutter: 24px. Outer margin: 40px (desktop), 24px (mobile).

EMAIL GRID

Single-column, max 600px wide. Content padding: 40px sides. Section padding: 32px vertical.

PRINT GRID

A4/Letter. 20mm margins. Body text 10–11pt. Headlines 24–36pt. Line spacing 1.4–1.6.

08 — UI COMPONENTS

Buttons & Controls

Button hierarchy is strict. One primary action per view. Secondary actions are subordinate — never competing visually with the primary.

Become a Client →

Login

Learn More

Register →

Disabled

Primary CTA | Secondary Action | Outline Dark | Outline Red | Disabled

BUTTON RULES

Min touch target: 44×44px. Use "→" arrow on primary CTAs. Border-radius: 2px (sharp, professional). Letter-spacing: 0.04em. Font-weight: 600. No rounded "pill" buttons in professional contexts.

EMAIL BUTTONS

Always use HTML table-based buttons for email (not CSS-only). Background-color on the td element. Padding: 14px 28px. Width: auto, not full-width unless mobile. Always include a fallback text link below.

Visual Language

Photography communicates competence and scale. Use real properties, real work, real outcomes — not stock smiles or abstract tech metaphors.

Exterior property photos, work-in-progress shots

✓ USE

Exterior property photography — before/after preservation. Aerial shots of REO portfolios. Field reps on-site. Actual work order documentation photography.

Generic office stock, smiling realtors

✗ AVOID

Generic stock photography, smiling people in suits, abstract tech imagery, cityscapes that don't relate to our service areas, staged "professional" photos that feel inauthentic.

TREATMENT

Slightly desaturated with high contrast. Dark overlay (30–40% black) when used as hero backgrounds. Never filtered with vintage/warm tones.

ASPECT RATIOS

Hero: 16:9. Card thumbnails: 4:3 or 3:2. Email header: 600×200px. Social: 1:1 or 4:5 for Instagram, 1.91:1 for LinkedIn.

FILE FORMATS

Web: WebP with JPEG fallback. Email: JPEG only (universal support). Print: TIFF or EPS, 300dpi minimum. Never GIF for photography.

10 — DIGITAL APPLICATIONS

Email & Digital Standards

Email is our primary outreach channel. Every email must render on dark-mode clients, mobile screens, and legacy Outlook. Table-based HTML required.

EMAIL SPECS

Max width: 600px

Background: #F7F5F2

Content bg: #FFFFFF

Font stack: DM Sans, then system

Body text: 16px / 1.6 line-height

No web fonts in Outlook

SUBJECT LINE RULES

Max 50 characters

Title case, no ALL CAPS

No emoji in cold outreach

Lead with benefit or context

Preheader: 85–100 chars

A/B test cold subject lines

ACCESSIBILITY

Min contrast ratio: 4.5:1

All images need alt text

Link text must be descriptive

Min font size: 14px in email

Touch targets: 44×44px min

Test with VoiceOver / NVDA
